7th International Workshop on Compositional Data Analysis
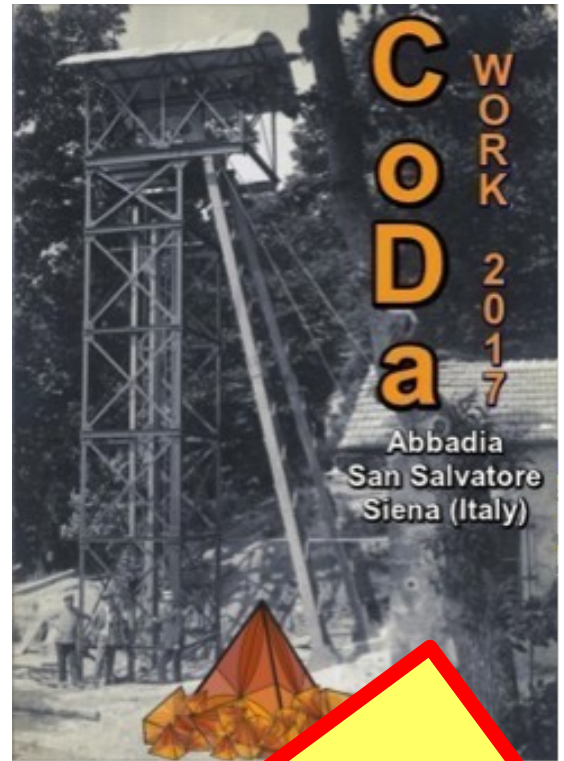

June 5-9, Abbadia San Salvatore (Siena) Italy

CoDaWork is a forum of discussion of theory and applications of the statistical analysis of Compositional Data.

June 5 will be devoted to an introductory course to theoretical and practical aspects of the statistical analysis compositional data

We welcome oral and poster contributions about:

· general theory and methods of analysis of compositions,

· pre-processing data tools and zero treatment,

· applications to life sciences and medicine,

· applications to chemistry, earth and environmental sciences,

· applications to economy, official statistics, social sciences as well as any other field of application where compositions or data from constrained spaces appear.

CODa WORK 2017

Abbadia San Salvatore Siena (Italy)

Abstract due	January 12, 2017
Notice of abstract acceptance	February 2, 2017
Early registration due	May 4, 2017
Full paper due	May 4, 2017

REGISTRATION IS NOW OPEN!

Register on www.compositionaldata.com/codawork2017

UNIVERSITÀ DEGLI STUDI FIRENZE — DST Dipartimento di Scienze della Terra

Universitat de Girona
